Please note that we received overwhelming response for our invitation for the summer internship programme. It may also be noted that selection committee has taken consideration on many aspects and their decision is final. Some of the parameters considered are a) Candidate's previous experience, b) Candidate's earlier project experience, c) Candidate's academic and other activities record, d) Giving opportunity to the institutions evenly distributed throughout the country, e) GERMI's project requirements, available facilities and matching with student skills etc. Accordingly, the selection is not based on academic merit alone!!

The persons not selected should not feel that they are in any way inferior to the selected candidates. Further, no correspondence will be entertained from the non-selected candidates.
